STATINTL

New company treasurer is [REDACTED]  
We ought to have him cleared SECRET as we did  
[REDACTED] - he is the one who renders the  
bills, etc. Please take care of this in your  
usual routine.

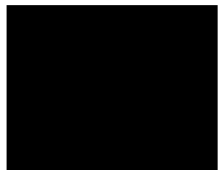

STATINTL

STATINTL

[REDACTED] is worried slightly: he's not sure all  
the contractual details are straightened out, and  
fears payment of his latest invoice will be  
unnecessarily delayed. Is everything okay on  
this end ? Does he have to go through more  
gyrations to get his money ? Etc ?

I saw glass targets containing 1000 mm<sup>-1</sup> patterns,  
clearly resolved. Work is still being carried out  
on making cleaner targets - developing techniques are  
clearly indicated, and I spent nearly an hour  
discussing possibilities for their improvement.

Program is nearly back on schedule again - work  
being done is clearly impressive and well done.  
Two new darkrooms are being constructed - should be  
completed in another week or two. Cameras for  
making targets are also completed and adjusted  
properly.
